Sign Up Page

**Sign Up Page**

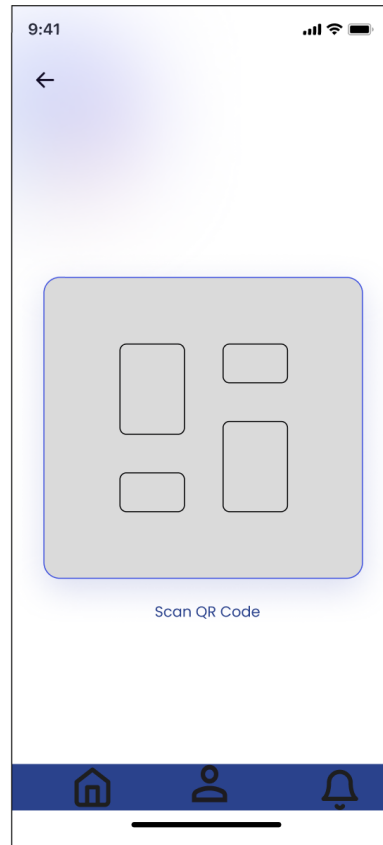

Lets users sign up for a new account by selecting username, password and entering their first and last name, email and phone number.

Home Page

**Entrant Dashboard**

Gives users options to Scan QR code to view an event, and gives a link to lottery guidelines. Also has buttons to navigate to all available events, wait listed events (including those waiting to be drawn) and upcoming events for a user (lottery won).

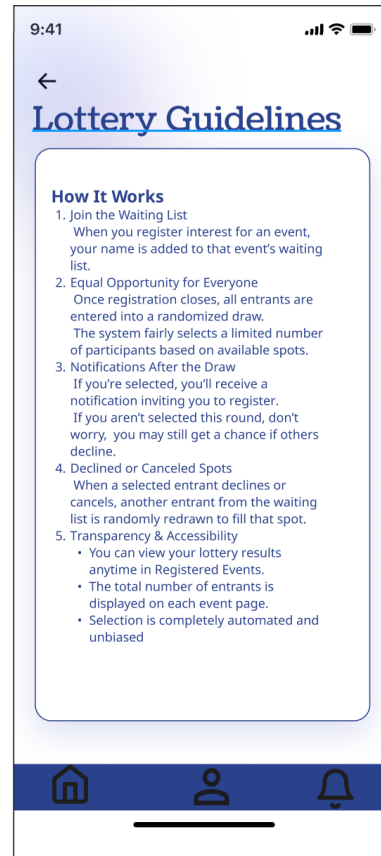

QR Code Scanner

QR Code Scanner

Allows user to scan a QR code for an event to view details and sign up for the waiting list (lottery).

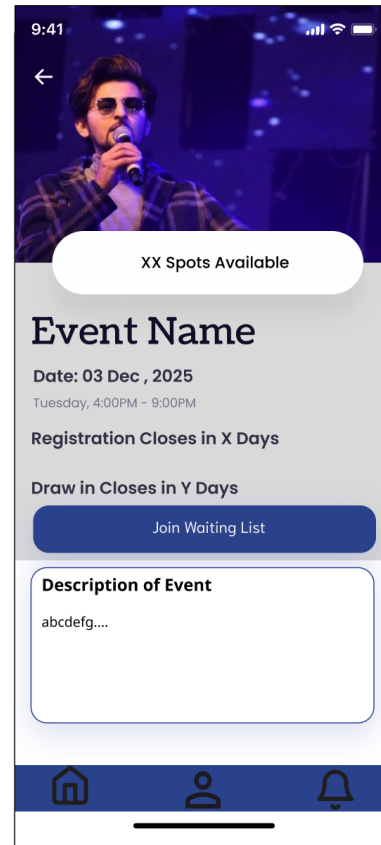

Home Page

Lottery Guidelines Page

Gives entrants information on how to participate in the event lottery.

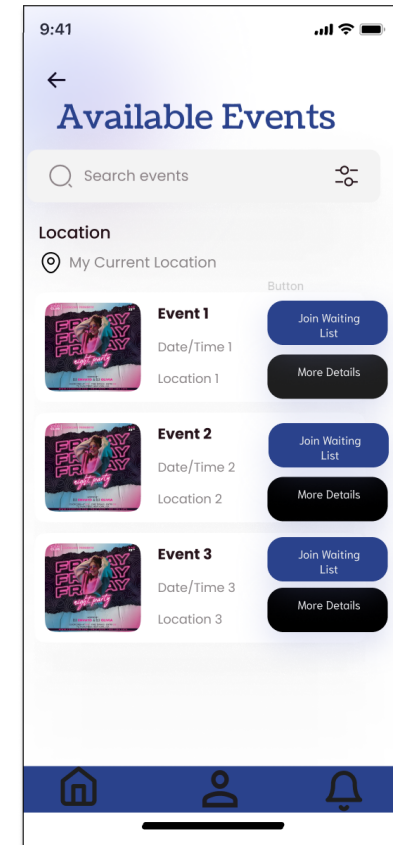

Share

Event Details Page

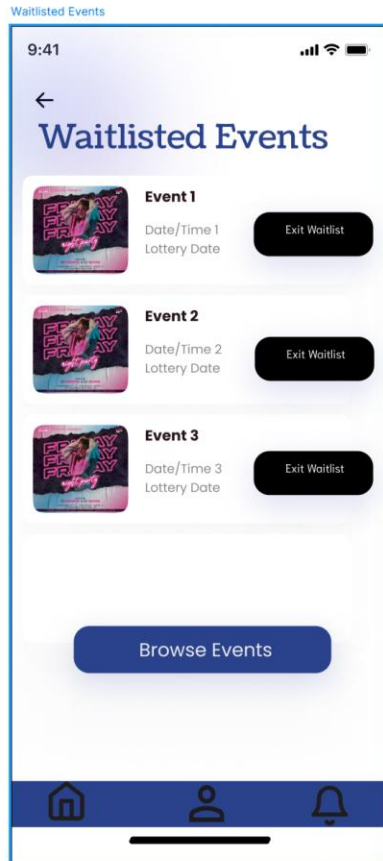

For each event, gives the event name, date and time of event, last day to enter the waiting list, and the day of drawing. It also provides a description of the event, and gives the number of spots available. Users can join the waiting list for an event from here as well.

Available Events

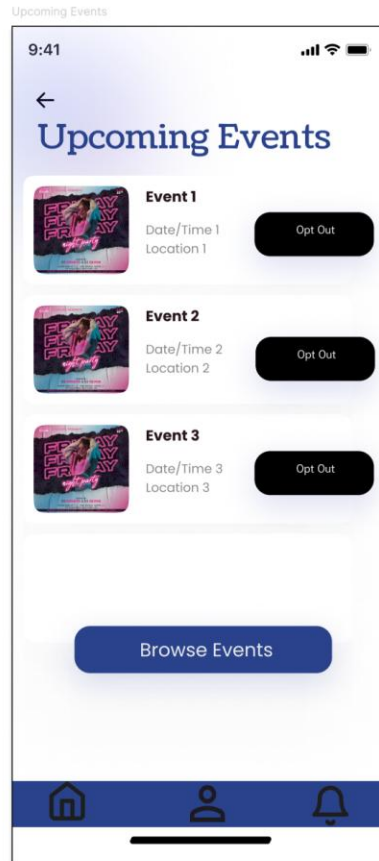

Available Events

Gives a list of all possible events. Allows users to join waiting list for each event, or view more details about each event. Also allows entrant to filter events by searching and refining by location.

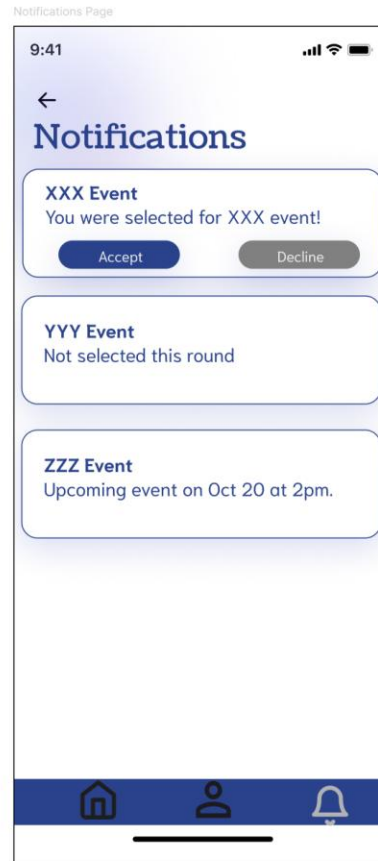

Wait-listed Events

Shows a list of all events users have wait-listed where the lottery has not yet been drawn or the user has lost the lottery but the event is still upcoming and could have spots open up. It also gives the user option to browse for other events and exit the wait list for each event if they are no longer interested.

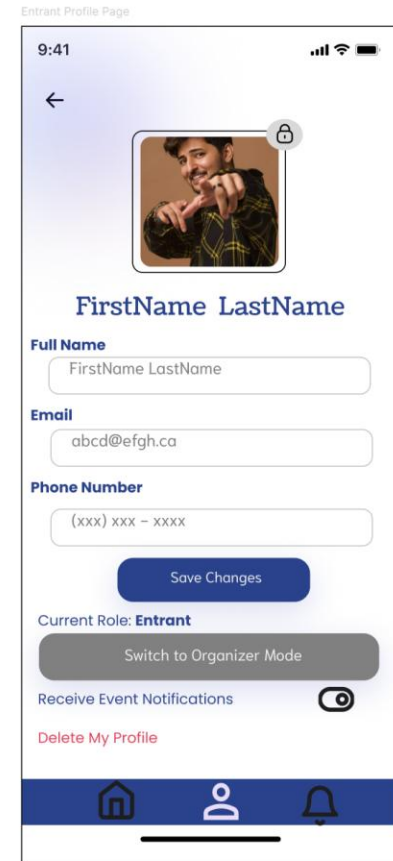

Upcoming Events

Shows a list of all events where users are now registered because they have won the lottery. It also gives them the option to opt out of any of these events, and also to browse other available events.

Notifications Page for Entrants

Shows notifications relevant to entrants like notifying that they've been drawn for an event, notifications of upcoming events and informing them if they lost a draw for a wait-listed event.

Entrant Profile Page

Shows details of the entrant, and allows them to make changes to their name, email and phone number. Also allows switching between Entrant and Organizer profile modes. Also has options to turn on and off event notifications and delete user profile.
